# cruise SAINT JOHN

At the mouth of the famous Bay of Fundy, the historic seaport of Saint John is bustling with activity. Learn about the province's history at a museum, explore the culture at a gallery, shop for some of the finest crafts you'll find anywhere... and it's almost all within view of the harbour and within walking distance from the cruise ship.

In addition to the natural beauty of Saint John and its cultural and historic attractions, you'll notice that the warmth of the people who live here will stay with you long after the ship sails away from the harbour.

When you leave this port city, you'll know why the locals call it Saint Awesome.
